or suggested by the cited art). Also, both references are silent on synchronization before disconnection (claims 11, 24, and 33). Col. 1, starting with line 60+, does not appear to provide this function.

SUMMARY

As has been detailed above, none of the references, cited or applied, provide for the specific claimed details of applicant's presently claimed invention, nor renders them obvious. It is believed that this case is in condition for allowance and reconsideration thereof and early issuance is respectfully requested.

If it is felt that an interview would expedite prosecution of this application, please do not hesitate to contact applicant's representative at the below number.
